### DETAILED ACTION

Claims 2-4, 7, 9-11, 14, 16-18, 21-24, 27-29, and 32-34 have been examined.

#### *Examiner's Amendment*

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney John Guay on August 17, 2006.

The application has been amended as follows:

Claims 1, 5, 6, 8, 12, 13, 15, 19, 20, 26, 31, and 36 are hereby cancelled without prejudice or disclaimer. Applicant reserves the right to pursue the subject matter of these claims in a continuing application.

In claim 2, "The method as set forth in claim 1" is hereby amended to **"The method as set forth in claim 7"**.

In claim 3, "The method as set forth in claim 1" is hereby amended to **"The method as set forth in claim 7"**.

In claim 4, "The method as set forth in claim 1" is hereby amended to **"The method as set forth in claim 7"**.

In claim 7, in the seventh line, "at least one of the consumable" is hereby amended to **"at least one of the consumables"**.

In claim 9, "The method as set forth in claim 8" is hereby amended to **"The method as set forth in claim 14"**.

In claim 10, "The method as set forth in claim 8" is hereby amended to **"The method as set forth in claim 14"**.

In claim 11, "The method as set forth in claim 8" is hereby amended to **"The method as set forth in claim 14"**.

In claim 14, in the ninth line, "at least one of the consumable" is hereby amended to **"at least one of the consumables"**.

In claim 16, "The method as set forth in claim 15" is hereby amended to **"The method as set forth in claim 21"**.

In claim 17, "The method as set forth in claim 15" is hereby amended to **"The method as set forth in claim 21"**.

In claim 18, "The method as set forth in claim 15" is hereby amended to **"The method as set forth in claim 21"**.

At the end of claim 22, the period after "peripheral device" is hereby replaced by a comma, and followed by **"and the distributing further comprises allocating the at least a portion of the payment to the retailer that sold the peripheral device."**

At the end of claim 27, the period after "peripheral device" is hereby replaced by a comma, and followed by **"and the distributing further comprises allocating the at least a portion of the payment to the retailer that sold the peripheral device."**

At the end of claim 36, the period after “retrieved information” is hereby replaced by a comma, and followed by **“and the distributing further comprises allocating the at least a portion of the payment to the retailer that sold the peripheral device.”**.

***Allowable Subject Matter***

Claims 7 and 2-4 are allowed.

Claims 14 and 9-11 are allowed.

Claims 21 and 16-18 are allowed.

Claims 22-24 are allowed.

Claims 27-29 are allowed.

Claims 32-34 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art of record, Hayward et al. (U.S. Patent 6,629,134), discloses a method comprising: displaying with a device a status of at least one consumable in the device, and information about ordering at least one of the consumables when at least one condition occurs (Figures 3 and 4; column 5, line 10, through column 6, line 4); monitoring with the device for an input indicating that an order for at least one of the consumables has been placed (column 7, line 67, through column 8, line 38); and submitting with the device the order for at least one consumable to a supplier if the monitored input indicates an order should be placed (column 7, line 67, through column 8, line 38). Hayward does not expressly disclose displaying the status of a plurality of consumables at one time, but does disclose displaying the status of various

Art Unit: 3625

consumables, such as paper and magenta ink (column 5, line 10, through column 6, line 4). Hayward does not disclose that the monitoring and submitting are performed by the peripheral device, but Haines et al. (U.S. Patent Application Publication 2003/0074268) teaches the peripheral device submitting the order (Abstract; paragraph 8; claim 1), and teaches configuring the peripheral device and coordination of orders over a group of peripherals or over time (paragraphs 54 and 55). Hayward discloses (as per claim 6, etc.) determining a distribution of at least a portion of the payment based on the retrieved information (column 8, lines 60-68). However, Hayward does not disclose that the retrieved information identifies a retailer that sold the device, and neither Hayward, Haines et al. (U.S. Patent Application Publication 2002/0072998), nor any other prior art of record discloses that determining the distribution allocates the at least a portion of the payment to the identified retailer. (This statement is made with particular reference to claim 7, but the other potentially allowable claims are allowable on essentially the same grounds.)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Harper (U.S. Patent 7,031,933) discloses a process for setting

Art Unit: 3625

and storing ordering preferences and profile data locally. Haines et al. (U.S. Patent 7,043,523) disclose a self-adjusting consumable order-assistance system and method.
